

WILDWOOD VALLEY GARDENS

Yesterday. Today. Forever.

## Introducing Wildwood Valley Gardens

Wildwood Valley Gardens is a community garden and memorial space designed by award winning landscape architect Herb Schaal, with gardens designed by William Cullina, head of the top-ranked Coastal Maine Botanical Garden. It is a botanical jewel providing an inviting community space for all to enjoy, while beautifully honoring those memorialized within.

This vibrant community garden and memorial space is nestled between Bellefontaine's Cypress and Cascade Lakes. It is the first of several planned gardens within the valley. With its intertwining paths and stream, hundreds of feet of curving walls and grassy terraces, Wildwood Valley offers traditional ground burial and cremation options for both individuals and families who wish to be a part of this one-of-a-kind space.

# SON BY

### Family Estates

The Family Estates of Wildwood Valley are located along the highest terrace of the gardens, adjacent to Bellefontaine's Lake Avenue. Each Family Estate can accommodate cremation, traditional, or green burial, and may range in size from 4 to 24 graves, with lot pricing beginning at \$20,000. These estates back up to lush gardens, and feature sweeping views of Wildwood Valley and the surrounding lakes.

#### Cremation Gardens

The Cremation Gardens at Wildwood Valley accommodate in-ground scattering and cremation burial in bio-degradable urns. Benches and a paved pathway line the area between each cremation garden and the stream. Each cremation burial is memorialized via a dedicated panel on the adjacent garden wall. Pricing for cremation burial begins at \$4,000 for the first right of interment.

## Garden Lawn Crypts

The Garden Lawn Crypts of Wildwood Valley are aligned just below the Family Estates in the grassy middle terrace of the gardens. Each lawn crypt is a pre-installed outer burial container accommodating up to two traditional burials in a single gravespace. For those who prefer an outer container such as a vault, these lawn crypts serve as an ideal alternative. Each garden lawn crypt includes two burial rights sold together, and memorialization on a dedicated panel in the adjacent garden wall. Pricing begins at \$7,500 for two rights of interment.

## Private Statuary Gardens

The Private Statuary Gardens of Wildwood Valley are tucked throughout the area's lower terrace. These exclusive alcoves accommodate cremation burial and provide opportunities for custom statuary and other specialized memorialization. Each private garden is unique, but most offer views of the stream, semi-private walkways, and benches. A single garden may accommodate from 6-16+ cremations, with pricing beginning at \$50,000.
